

## Your target is our business.

### **FROHN-Steel-Shot - the high-class non-toxic alternative to lead**

The relationship between shooting sports, nature, and environmental protection is gaining more and more attention. This was the determining factor for FROHN'S entrance into the production of high grade Steel Shot.

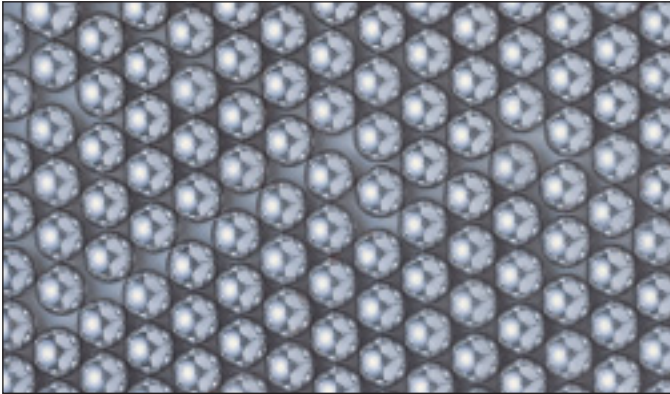

A significant aspect of Frohn Steel Shot is that it has the potential to produce similar ballistical results as lead, yet is absolutely ecologically neutral in its impact on the environment.

A precise manufacturing process and exceptional raw products guarantee a reproducible quality of the highest grade. You will profit from our technical competence and experience.

## Quality

The shot is ground to a smooth finish removing all irregularities and left clean and free of rust or foreign particles. A light coating of rust preventative lubricant is also applied.

## Hardness

Surface: max. 110 HV1

Core: max. 100 HV1

## Specifications

Manufactured to exceed the exacting specifications of the C.I.P. in Europe and the S.A.A.M.I. in North America.

## Packaging

All material is packaged in plastic lined 55-gallon drums (2,000 lb.) and sealed to resist moisture.

Custom packaging available.

## Sizes and Tolerances

Shot No.	Shot Size		Tolerance	
	(mm)	(inch)	(mm)	(inch)
No. 7	2.54	0.10	+/- 0.08	+/- 0.003
No. 6	2.79	0.11	+/- 0.08	+/- 0.003
No. 5	3.05	0.12	+/- 0.08	+/- 0.003
No. 4	3.30	0.13	+/- 0.08	+/- 0.003
No. 3	3.56	0.14	+/- 0.08	+/- 0.003
No. 2	3.81	0.15	+/- 0.08	+/- 0.003
No. 1	4.06	0.16	+/- 0.08	+/- 0.003
No. B	4.32	0.17	+/- 0.08	+/- 0.003
No. BB	4.57	0.18	+/- 0.08	+/- 0.003
No. BBB	4.83	0.19	+/- 0.08	+/- 0.003
